Education

PhD in Nursing

Branch: education & research

Institute/University: Isfahan University of Medical of Sciences
Isfahan, Iran

2006 - 2010

Master of Nursing

Branch: medical surgical nursing

Institute/University: Kerman University of Medical of Sciences
Kerman, Iran

1993 - 1995

Bachelor of Nursing

Institute/University: Kerman University of Medical of Sciences
Kerman, Iran

1991 - 1993

Diploma in Nursing

Institute/School: Kerman University of Medical of Sciences
Kerman, Iran

1986 - 1988

Work Experience

Nurse

Immam hospital

Tehran, Iran

1988 - 1990

Nurse

Jiroft. hospital

Jiroft, Kerman, Iran

1990 - 1991

Nurse

Rafsajan hospital

Rafsajan, Kerman, Iran

1991 - 1992

Head nurse

Rafsajan hospital

Rafsajan, Kerman, Iran

1993 - 1994

Faculty member

Rafsajan University of Medical of Sciences

Rafsajan, Kerman, Iran

1995 - Present

Director of Education and Graduate Studies

Rafsajan University of Medical of Sciences

Rafsajan, Kerman, Iran

2016 - Present

The effect of Arni Gol cream on the intensity of pain caused by inserting vascular needles in hemodialysis patients

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the effect of intravenous ketamine during caesarean section on postpartum depression in hospitals of Rafsanjan University of Medical Sciences 2015

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

A comparative study of the effect of two methods of role-playing and film training on the performance of students and their teachers in dealing with foreign body aspiration in high school teenagers of Rafsanjan city in 2016

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Comparing the frequency of triage error in triage with two methods of shock index and emergency deterioration index in abdominal trauma patients referred to Shahid Rajaei Hospital affiliated to Shiraz University of Medical Sciences 2015

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Studying the frequency of some causes of bronchopulmonary dysplasia in preterm infants hospitalized in the neonatal intensive care unit of Ali Ibn Abitalib (AS) Rafsanjan Hospital in 2015-2016

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Investigating the effect of acupuncture on the lung function of Sarcheshme copper complex workers in Rafsanjan in 2015

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Investigating the results of pulse oximetry of the right organs in the early diagnosis of heart diseases in newborns in Nik Nafs and Ali Ibn Abitalib (AS) hospitals in Rafsanjan in 2014

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Examining the results of diagnostic tests (D-dimer and CT pulmonary angiography) in patients suspected of pulmonary thromboembolism in Ali Ibn Abi Talib (AS) hospital in 2014 and 2015

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Investigating the quality of life of 4-12-year-old children with cerebral palsy covered by the welfare department of Rafsanjan city in 2016

For: Rafsanjan University of Medical Sciences

Advisor

Master of Nursing

Investigating the effect of family education on the self-efficacy of kidney transplant patients in Namazi Hospital, Shiraz, 2015

For: Rafsanjan University of Medical Sciences

Supervisor

Master of Nursing

Investigating the effect of teaching communication skills to nurses on the anxiety and satisfaction of patients hospitalized in the CCU departments of Kerman city in 2015

For: Rafsanjan University of Medical Sciences

Supervisor

Master of Nursing

Comparison of the effect of auricular acupuncture with foot reflexology on the symptoms of substance deprivation syndrome in infants with drug addict mothers admitted to Ali Ibn Abi Talib Hospital in Rafsanjan in 2016.

For: Rafsanjan University of Medical Sciences

Supervisor

Master of Nursing

Examining the relationship between excitement seeking and job stress in emergency medical workers of Rafsanjan University of Medical Sciences in 2017

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the local effect of rosemary ointment on the occurrence of phlebitis and infection caused by angiocets (peripheral vascular catheters) in children admitted to the pediatric ward.

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

A comparative study of the effect of peer and nurse training on self-care of hemodialysis patients referred to selected hospitals in Isfahan province in 2015

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the effect of information about the patient's condition on the anxiety level of the family of traumatic brain injury patients hospitalized in Shahid Bahonar Hospital, Kerman in 2015

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Comparison of procalcitonin serum levels in patients with chronic obstructive pulmonary disease hospitalized in Ali Ibn Abi Talib (AS) Rafsanjan Hospital with healthy subjects, 2017

For: Rafsanjan University of Medical Sciences and Medical Services

Advisor
Master of Nursing

Investigating day-to-day changes in the occurrence of acute myocardial infarction in patients admitted to the cardiac intensive care unit of Ali Ibn Abi Talib (AS) Rafsanjan Hospital in 2016

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigating the effect of education to clients of addiction treatment centers on the number of methadone poisoning cases in children at risk in Rafsanjan, 1396-1395

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigating the correlation between perceived dignity and self-esteem in the elderly referring to comprehensive health service centers in Sirjan city in 2017

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

The effect of stress control training on the quality of life of multiple sclerosis patients referred to special diseases clinic in Rafsanjan city in 2016

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the effect of designed free time intervention on feelings of loneliness and general health of widowed elderly women under the comprehensive health service centers of jiroft 2016

For: Rafsanjan University of Medical Sciences

Supervisor

Investigating the causes of nocturnal enuresis in 7-21-year-old children referred to the specialized pediatric clinic in Rafsanjan city in 2016

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigation of the frequency of abortion, stillbirth and congenital anomalies in familial and non-familial marriages in Rafsanjan hospitals in 2017

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigation of the frequency of thyroid hormone function disorders in hemodialysis patients in Rafsanjan city in 2017

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigating intraocular pressure in patients with major depression undergoing electroshock therapy in the psychiatry department of Moradi Rafsanjan Hospital in winter 2017

For: Rafsanjan University of Medical Sciences

Advisor
Master of Nursing

Investigating the effect of cold dialysis fluid on the prevalence of cardiac arrhythmias and hemodynamic status during dialysis in patients referred to the dialysis department of Ali Bin Abitalib Rafsanjan Hospital.

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the effect of cold compress application and electrical-nerve stimulation of the skin and their combination on pain during chest tube removal in cardiac bypass patients admitted to Shafa Hospital in Kerman in 2017

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Investigating the local effect of propolis cream on infection and the time of phlebitis caused by amiodarone in cardiac patients hospitalized in Ali Ibn Abitaleb (AS) hospital, Rafsanjan city in 2016

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

A comparative study of the effect of three cold therapy methods on the intensity of pain caused by vascular needles in hemodialysis patients referred to the hemodialysis center of Ali Ibn Abi Talib Rafsanjan Hospital in 2017.

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing

Comparison of the effect of reflexology with auriculotherapy on pain after caesarean section in pregnant women referred to medical training centers of Rafsanjan University of Medical Sciences in 2017

For: Rafsanjan University of Medical Sciences

Supervisor
Master of Nursing
